

Vivek Kumar Pandit

Full Stack Developer

Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of front-end and back-end development requirements. Handles any part of process with ease.

Projects

○ Pahadi Baba App

It is a restaurant app and It is developed using react native framework. Firebase is used as backend. A form is developed using Reactjs by which owner of restaurant can add food items to the app. In this app user can log in and see the menu along with rate of the food item.

○ FilmFlix

It is a movie app which show the movie list. This app uses the API of 'The Movie Database' site .It shows movie list, movie duration, biodata of role played in the particular movie etc. It shows movies list in different categories like trending , top rated etc.

○ CRUD (Laravel)

In this project , I have made CRUD operations using PHP framework 'Laravel'. MySQL database is used in this. I have used middleware for user authentication. Validation is used for form validation.API routing is also used as well as web routing.
