Saran, Bihar, 841412

Education

2022-2024
MCA
Central University of Haryana,
Mahendragarh (Haryana)

Skills

- HTML
- CSS
- Javascript
- C++
- Reactjs
- React Native
- MySQL
- Tailwindcss
- Bootstrap
- PHP
- Laravel
- Postman
- DSA
- jQuery
- AJAX
- API

Vivek Kumar Pandit
Full Stack Developer

As a dedicated Full Stack Developer, posses extensive expertise in both front-end and back-end development, with a proficient understanding of React Native, ReactJS, MySQL, and Laravel among other technologies. Commitment of continuous learning and improvement is evidenced by overcoming challenges like solving over 200 DSA questions on LeetCode.

Projects

○ **SpiceHouse Restaurant App (Reactjs, React Native, Firebase)**

A restaurant app project developed using React Native provides users a seamless experience to browse menus, place orders, and manage their cart through components like UserCart, Home, and Search. The app integrates with a Firebase backend for real-time data synchronization and user authentication. An admin panel, built with React JS, allows restaurant administrators to manage menu items, orders, and user information.

○ **FilmFlix (React Native)**

A movie app project developed using React Native utilizes navigation, hooks and routing to create a dynamic and user-friendly mobile applications. The app allows users to browse, search, and view details about movies, leveraging React Navigation for seamless screen transitions. React hooks manage state and side effects efficiently, ensuring a smooth and responsive user experience.

○ **CRUD (Laravel)**

A CRUD operation project using Laravel involves developing a web application to Create, Read, Update, and Delete database records. Utilizing Laravel's Eloquent ORM for database management, Blade templating engine for dynamic and reusable views, and RESTful routing for streamlined URL handling, the project ensures efficient data manipulation and user interface design.
